

STANDING **TALL** IN THE FACE OF EVERYDAY **GIANTS**

BRAVE

GAME- **#FAIL**

Learning points:

It's the F word we least like to talk about - but we all have flaws and moments where we mess up. How do we learn to fail well and fight the fear of failure that can hold us back from trying new things?

How to play:

- Search for win and fail clips on Youtube
- These are clips of people doing sometimes crazy things where they either win - and everything goes miraculously to plan - or they fail resulting in an often painful outcome!
- For each clip, pause it just before the people in the video either win or fail and have the young people guess what will happen next - will they win or fail? Play several clips and see who has the most correct guesses.
- This is very much a game of chance! Some people who you think are sure to win, end up failing. And some clips where you're sure will end in disaster, actually turn out great!
